

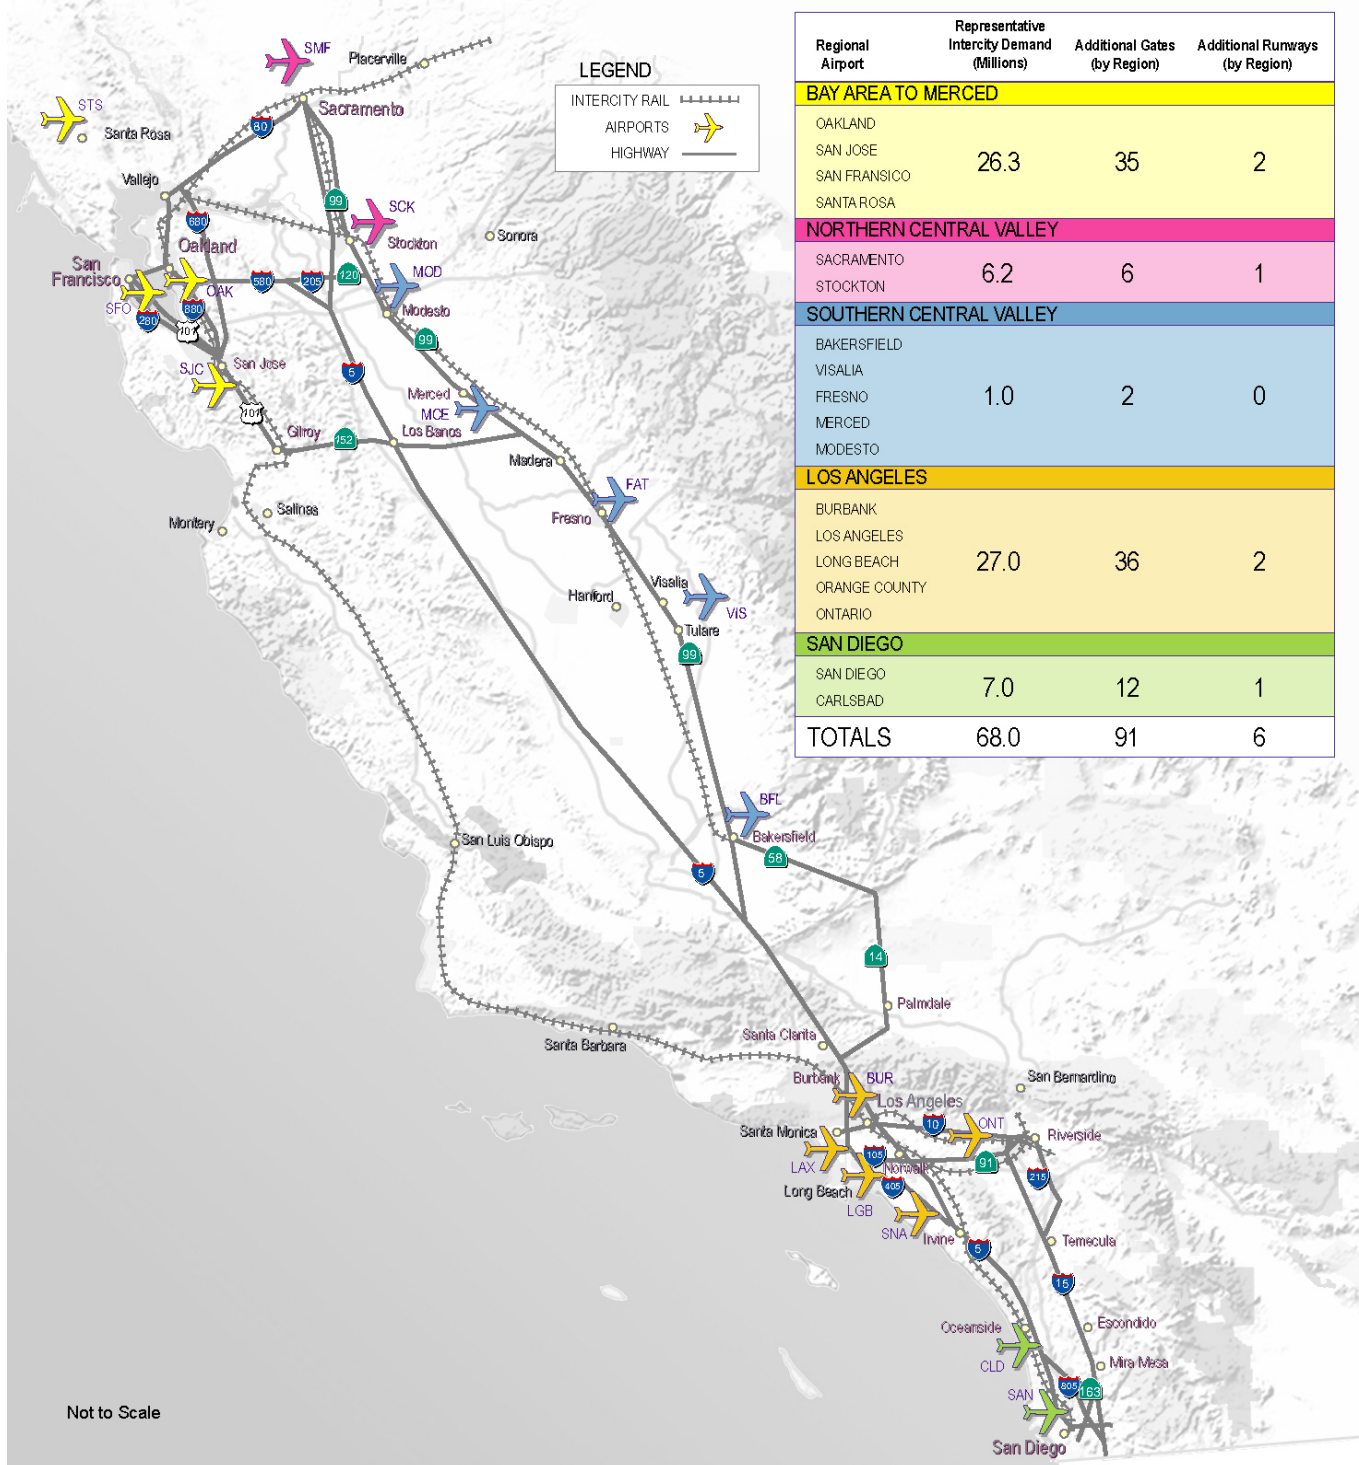

**Figure 3      Modal Alternative – Aviation Component**

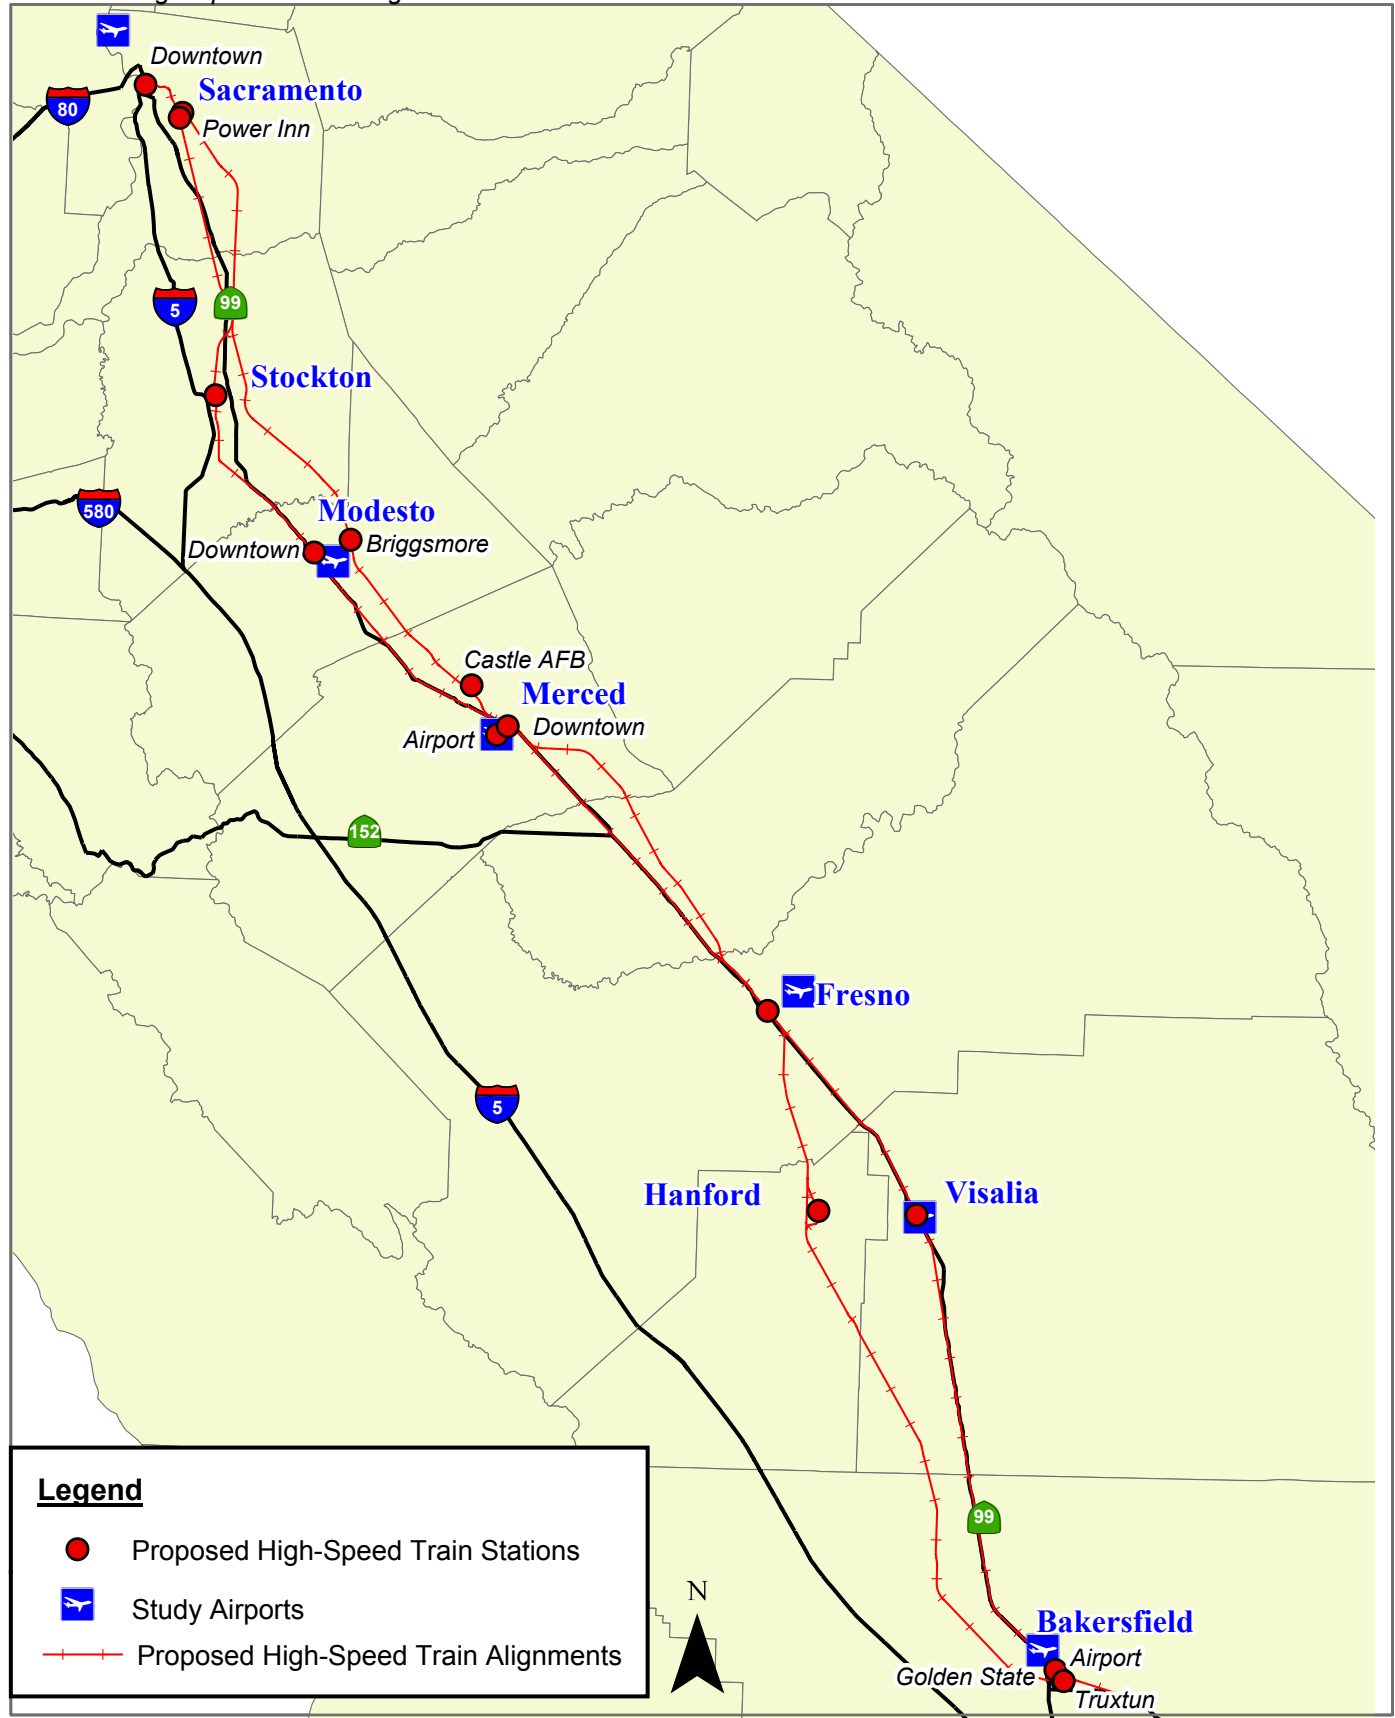

The map displays the proposed high-speed rail network across California. Key features include:

- Electrified HSR Service:** Represented by solid blue lines, primarily following the West Coast corridor from San Francisco through the Central Valley to Los Angeles and San Diego.
- Non-Electric HSR Service:** Represented by solid yellow lines, primarily in the Southern California region, including routes from Los Angeles to San Diego and from the Central Valley to the Inland Empire.
- Route Options:** Represented by dashed blue lines, showing alternative paths between major hubs like San Francisco, Sacramento, and the Central Valley.

Major cities and locations marked on the map include San Francisco, Sacramento, San Jose, Fresno, Bakersfield, Los Angeles, San Diego, and San Bernardino. The map also shows existing and proposed highways, such as I-5, I-805, and SR-99.
